ADA Workstations

- One computer located in the Technology Resource Center
- Dragon NaturallySpeaking installed
- Enhanced accessibility software options are available
- Station is equipped with adjustable height
- Station has a swivel keyboard

Windows Accessibility Software

- Accessibility software
 - Located in the Control Panel under Accessibility Options.
 - Available on all lab and classroom workstations.
- Windows Display Properties
 - Located in the Control Panel under Display, and Appearance.
 - Available on all lab and classroom workstations.

Dragon NaturallySpeaking Software

- Available on one computer located in the Library in the Technology Resource Center room.
- Used to create reports, draft letters, etc., all by speaking naturally to your computer.
- True continuous speech, high recognition accuracy and adapts to your voice.
- Offers voice commands, dictation playback, a large vocabulary, tools to personalize vocabulary, and supports almost any Windows application.

JAWS (Job Access With Speech)

- Screen reader that works with Windows to provide access to software applications and the Internet.
- Uses an integrated voice synthesizer and your computer's sound card to output the content of your computer screen to speakers.
- JAWS is available upon request.

ZoomText

- Powerful computer access solution designed for the visually impaired.
- Consists of two adaptive technologies
 - Screen magnification
 - Screen reading
- Allows you to see and hear everything on the computer screen, providing complete access to applications, documents, e-mail and the Internet.
- ZoomText is available upon request.
