Harris-Stowe State University

INTRODUCTION

The office of Campus Public Safety, in conjunction with other departments at Harris-Stowe State University (HSSU), prepares and distributes this Annual Security and Fire Safety Report. The report serves several purposes: it complies with the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act; explains how the University reports, investigates and responds to crime and emergencies on or near University property; informs the University community of the safety and security resources available to respond to emergencies; and provides other safety and security information to the University community so that informed decisions may be made by the University community.

This annual report is published and released by October 1 of each year. The University's final crime statistics are compiled by Campus Public Safety using crime definitions found in the FBI Uniform Crime Reporting Handbook. In compliance with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, 20 USC 1092(f), the statistics for the three most recent calendar years include crimes that occurred: 1) on-campus (any building or property owned or controlled by Harris-Stowe State University within the same reasonably contiguous geographic area and used by Harris-Stowe State University in direct support of, or in a manner related to, the University's educational purposes, including residence halls and any building or property that is within or reasonably contiguous to the area identified above that is owned by the University but controlled by another person, is frequently used by HSSU students and supports institutional purposes); 2) on non-campus buildings or property (any building or property owned or controlled by a student organization that is officially recognized by the institution or any building or property owned or controlled by an institution that is used in direct support of, or in relation to, the University's educational purposes, is frequently used by students, and is not within the same reasonably contiguous geographic area of the University); and 3)

on public property (all public property, including thoroughfares, streets, sidewalks and parking facilities, that are within the campus, or immediately adjacent to and accessible from the campus) that are reported to a campus security authority, as defined in the Act, or to local police agencies.

A PDF version of the this report can be viewed or otherwise printed by way of the Harris-Stowe State University's Campus Public Safety website. Click on the tab, 'Annual Security Report.'

Please contact the Campus Public Safety for additional crime information or questions relative to this report.

HOW TO REPORT CRIMINAL ACTIVITY AND OTHER EMERGENCIES

Students, faculty, staff, and guests are encouraged to report crimes and public safety related incidents to the Campus Public Safety or the St. Louis Metropolitan Police Department in an accurate and timely manner. To report criminal activity and other emergencies contact Campus Public Safety (314) 340-3333. The St. Louis Metropolitan Police Department can be reached by dialing 911 if there is an emergency. If there is no emergency, dial (314) 231-1212. Crimes should be reported to the Campus Public Safety to aid in providing timely Campus Safety Notifications and to ensure inclusion in annual crime statistics.

Every member of the Harris-Stowe State University community is encouraged to take an active role in reporting hazardous conditions, criminal activity or any emergency. Any time immediate response is needed or a person is unsure of whom to call, the Campus Public Safety can be contacted by phone at (314) 340-3333; in person at Room 019 (Henry Givens Administration Building (HGA) or at the Bosley and/or Gillespie Residence Hall security desks. Campus Public Safety will contact fire, ambulance or police. Campus Public Safety officers will dispatch personnel to the scene of any reported incident and make other notifications, as needed. As

deemed appropriate, an emergency notification or timely warning of a crime that poses an ongoing threat to the University community will be initiated by Campus Public Safety.

Code Blue Stations (emergency phone) are located around campus — on parking lots, along walkways and in front of the Clay Early Childhood Center. The emergency phones will connect you directly to Campus Public Safety.

University Departments Work Together to Help Those in Crisis

Campus Public Safety officers handling an incident involving a University student or employee will contact a counselor or, if appropriate, a Residential Life staff member in situations that require it or when a victim requests assistance. Campus Public Safety officers will contact non-university emergency personnel as needed. Residential Life staff members, Human Resources, University counselors and Student Affairs staff may advise persons of procedures involving reporting of pertinent matters to Campus Public Safety and local police. Victims of crime, harassment or any other incident may have someone accompany them when reporting an incident to the Campus Public Safety or local police. Campus Public Safety will cooperate with and request local police whenever such involvement is appropriate. Local hospitals and medical facilities may be required to contact local police in some cases where evidence of a crime becomes apparent during treatment of a patient.

Security Information and Assistance is Provided to all Students and Employees

Students living on-campus are provided information specific to their residence hall. The Student Handbook provides safety, security and emergency information and advice. Telephone numbers are available on the University website and the Campus Public Safety maintains a website, accessible through the University's website (www.hssu.edu), which contains helpful information relative to safety and security on campus.

POLICY ON EMERGENCY NOTIFICATION

General information about the emergency response and evacuation procedures for HSSU will be made available as part of the HSSU's Clery Act compliance efforts and that information is available in hard copy in the Campus Public Safety office, 019 HGA, the Dean of Student Affairs Office, Gillespie Residence Hall. By October 1, 2014, these procedures will be available on the Campus Public Safety web site.

Campus Public Safety has the responsibility of responding to, and summoning the necessary resources, to mitigate, investigate, and document situations that may cause a significant emergency or dangerous situation. In addition, Campus Public Safety has a responsibility to respond to such incidents to determine if the situation does in fact, pose a threat to the community. If that is the case, federal law requires that the institution immediately notify the campus community or the appropriate segments of the community that may be affected by the situation.

If confirmed that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the HSSU Community, Campus Public Safety and the office of Communications and University Relations, will collaborate to determine the content of the message and will use some or all of the systems described below to communicate the threat to the HSSU community or to the appropriate segment of the community, if the threat is limited to a particular

building or segment of the population. Campus Public Safety and of Communications and University Relations will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders (including, but not limited to: Campus Public Safety, St. Louis Metropolitan Police, St. Louis Fire Department), compromise the efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

In the event of a serious incident that poses an immediate threat to members of the HSSU community, the University has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of an immediate threat to the HSSU community. These methods of communication include network emails, emergency text messages via Twitter alerts that can be sent to a mobile phone for those who have opted in to receive such messages, and/or oral communications. Students are encouraged to opt-in to register cellular phone numbers and email addresses to receive emergency messages. A student may also register a parent's phone number or email address. Faculty and staff are strongly encouraged to register a phone number/email address in order to receive emergency messages. Follow-up information will be provided annually to the HSSU community using these methods of communication.

The emergency notification system is tested at a minimum, on an annual basis.

PROCEDURES FOR TESTING EMERGENCY RESPONSE AND EVACUATION PROCEDURES

An evacuation drill shall be coordinated by Campus Public Safety and Residential Life each semester for all residential facilities at HSSU. Thus the emergency response and evacuation procedures are tested at least twice each year. Decisions regarding designated locations for long-term evacuations are affected by the availability of designated emergency

gathering locations on campus as well as other factors such as the location and nature of the threat. Campus Public Safety and Residential Life staff at the scene will communicate information to students regarding the developing situation or any evacuation status changes.

The purpose of evacuation drills is to prepare building occupants for an organized evacuation in case of an emergency. At HSSU, evacuation drills are used as a way to educate and train occupants on issues specific to their building. During the drill, occupants familiarize themselves with the location of exits, the sound of the fire alarm, and direction they should travel upon exiting the building. DPS and Residential Life personnel are aware of the relocation areas for each residence hall. The process also provides the University an opportunity to test the operation of fire alarm system components.

Evacuation drills are monitored by DPS and Residential Life, and to evaluate egress and equipment issues. Reports may be prepared by DPS which identify deficient equipment so that repairs can be made immediately. Recommendations for improvements are also submitted to the appropriate departments/offices for consideration.

Students may receive information about evacuation and shelter-in-place procedures during informational or educational sessions that they can participate in throughout the year. The Residential Life staff is trained in these procedures as well and act as an ongoing resource for the students living in residential facilities.

DPS conducts tornado drills to assess emergency response and sheltering procedures. DPS will announce emergency response and evacuation procedures in conjunction with at least one test per calendar year.

POLICY ON TIMELY WARNING NOTIFICATION

The Executive Director of Institutional Security and Development, in charge of the Campus Public Safety or his designee, in conjunction with other HSSU officials, develop Campus Safety Alert messages for

the University community, in coordination with University Relations, to notify members of the University community about crimes that occur on campus, where it is determined that the incident may pose an ongoing threat to members of the University community. The Campus Safety Alert message will be launched by the Executive Director of Institutional Security and Development, in charge of the Campus Public Safety or his designee. The Campus Safety Notice will include information that will promote safety and will aid in the prevention of similar crimes. The Campus Safety Alert will include the date/time of the incident, the location and nature of the crime, information that promotes safety, such as crime prevention and safety tips, and information that will assist individuals in protecting themselves. The decision to issue a Campus Safety Alert is made on a case-by-case basis considering the validity of the information about the crime reported to DPS, facts surrounding a crime, the nature of the crime, continuing danger to the campus community, and risk of compromising law enforcement efforts.

Campus Safety Alerts are usually disseminated for the following FBI Uniform Crime Report/National Incident Based Reporting System Classifications: arson, criminal homicide, sex offenses (forcible rape, forcible sodomy, sexual assault with an object, forcible fondling, incest, and statutory rape), robbery, aggravated assault, burglary, and hate crimes. Cases of aggravated assault and sex offenses are considered on a case-by-case basis, depending on the facts of the case, and the information known to DPS. For example, if an aggravated assault occurs between two students who have a disagreement, there may be no ongoing threat to other members of the University community; therefore, a Campus Safety Alert would not be disseminated. Sexual assaults are considered on a case-by-case basis, depending on the facts of the case, when and where the incident occurred, when it was reported, and the amount of information known by DPS.

In an effort to provide timely notice to the University community, and in the event of a serious incident

which may pose a threat to members of the University community, an emailed Campus Safety Alert is sent to all students, faculty and staff.

Updates to the University community about any particular case resulting in a Campus Safety Alert may be distributed via email. The University may not provide timely warnings about those crimes reported to a professional counselor.

POLICIES FOR PREPARING THE ANNUAL DISCLOSURE OF CAMPUS CRIME STATISTICS

The Campus Public Safety and Emergency Preparedness compiles crime and fire data reported to the Campus Public Safety and Emergency Preparedness and collects crime and referral data from local law enforcement, and campus security authorities. The Campus Public Safety and Emergency Preparedness prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act. The full text of this report can be located on the Campus Public Safety and Emergency Preparedness website under Crime Information.

ORGANIZATIONS TO WHOM STUDENTS AND EMPLOYEES SHOULD REPORT CRIME FOR THE PURPOSE OF TIMELY WARNINGS AND INCLUSION IN THIS REPORT

Campus Public Safety, Henry Givens Administration Building, Room 019; or Public Safety Officers at both Gillespie and Bosley Residence Halls (314) 340-3333.

VOLUNTARY CONFIDENTIAL REPORTING

The University does not currently have a voluntary confidential reporting system for annual crime statistics.

POLICIES CONCERNING SECURITY OF AND ACCESS TO CAMPUS FACILITIES AND CONSIDERATIONS USED IN CAMPUS FACILITY MAINTENANCE

Residence Hall Access

Harris-Stowe State University's facilities consist of two residential facilities with more than 400 students living on-campus. The Residential Life security program stresses personal safety and preventive measures, which include:

- 24-hour security desks are in operation in both residence halls. During the school year, student and professional security staff monitored all people who entered the facility and, at various times and locations, controlled lobby door access. Student and security staff have access to telephones that notify the Campus Public Safety in the event of an emergency.
- University identification cards are required to enter the residence halls, and all non-residential student guests must be acknowledged and accompanied by a resident student.
- Exterior emergency exit doors are monitored with local alarms or alarms that immediately notify DPS of a potential breach in security.
- Residential Life student staff members live in both residence halls. A Residential Life staff member is always available or on call if needed.
- Students living on-campus periodically are reminded to keep their doors locked and to have valuables secured when visitors enter their rooms. The Student Handbook provides additional information and details on residence hall policies and procedures relative to maintaining a safe, secure environment. Certain University employees (e.g. Residential Life) have lawful access to residence halls and student rooms for maintenance, repairs, and cleaning.

Nonresidential Building Access

- Academic buildings are locked following the last classes of each day. Academic Buildings on the University's card access system are reopened remotely prior to the beginning of classes the

following day. Academic Buildings that are not on the University's card access system are reopened by Campus Public Safety Officers prior to the beginning of classes the next day.

- There is lighting in and around many campus facilities for increased safety and security purposes. Campus Public Safety Officers patrol University property and frequently monitor University buildings to address matters of safety and security.

Security Considerations Used in Campus Facility Maintenance

- Safety and security issues are considered and implemented in the design and placement of all campus lighting, shrubbery, trees and the like.
- Safety and security issues are considered when planning and designing major renovations to campus facilities or construction of new facilities on campus.
- Public Safety officers and maintenance personnel are expected to report promptly any safety and security maintenance issues when discovered.
- The University has implemented a University-wide key system, allowing for prompt lock changes, as necessary, when lost keys are reported. Most University keys on this system are stamped "Do Not Duplicate."

POLICIES FOR FIRE SAFETY

Actions to Take in Case of Fire:

- Know what your fire alarm sounds like.
- Know where pull stations are located.
- When you see a fire, sound the alarm.
- Contact Campus Public Safety at (314) 340-3333 or 911 to report any fire.

- Be prepared to identify the size of the fire and location.

- Exit building as safely and quickly as possible from the nearest exit. (In any building you should know where at least two exits are.)

- Close all doors behind you as you leave the building.

- Do not use the elevators for any reason.

- If you are physically challenged develop a buddy plan with someone else to help expedite safe exit.

- Notify others in the immediate area about the fire as you are leaving.

- Do not enter a building that is on fire or that the fire alarm is sounding in.

- Do not re-enter a building that you have evacuated for any reason.

- Never prop open or lock a fire exit door.

- Report any vandalism to any of the fire safety equipment in your building.

- The student handbook makes it mandatory for all students to exit the building when a fire alarm is sounding.

Description of Student Housing Fire Systems

HSSU promotes a safe and secure environment for our students. Our residence halls are equipped with automatic sprinkler systems and the primary fire alarm systems are hard-wired to contract monitoring company for continuous monitoring.

Our residence halls are equipped with smoke detectors, signage, and emergency lighting. Individual smoke detectors are located in most of the students' rooms. Smoke detector batteries are checked regularly by the residential housing staff in those residence halls with battery operated detectors. Pull stations are located near exit doors and exit doors are clearly marked. Smoke detectors, sprinklers, and alarms are designed to provide the

highest level of safety for our residents. Tampering with safety equipment or ignoring an evacuation order is prohibited. Residential facilities are important buildings to keep safe, and Campus Public Safety and Residential Life work with other departments and local authorities to determine if any alarm or known facilities problem has been sufficiently resolved to allow for reentry. Fire alarms are monitored 24 hours a day, seven days a week, and allow for direct access to St. Louis City Fire Department (SLFD). Fire drills are conducted in each residential housing facility once a semester in coordination with SLFD. Evacuation routes are located in each building. Prior to the commencement of classes in spring and fall, and during fire drills, the audio level of the alarms and the activation of light strobes are also checked.

Fire Safety Education

During the first week of school, students living in University housing meet with their Residence Hall Assistants and Residential Life staff. During that initial meeting they are told what actions to take during a fire, where the exits are and where the relocation areas are.

Anytime there is an evacuation emergency, such as a fire, the alarm will sound and strobe lights will activate throughout the building. Anytime there is an evacuation emergency, such as a fire, the alarm will sound and strobe lights will activate throughout the building.

Fire Prevention Policies

HSSU maintains a safe environment for our students through the initiation of policies and practices that promote fire safety at all levels. All residence halls receive regular fire safety inspections.

Policies and practices have been established throughout the campus that reduces the probability of a fire. Open burning, smoking, barbecuing outside of a designated area, and use of non-U.L. rated extension cords are prohibited.

The University continually examines preventative measures and policies associated with fire safety and implements changes deemed necessary for the continued safe operation of all University facilities.

Health, Safety, and Welfare

Students are prohibited from keeping or using firearms, fireworks, explosives, weapons (including, but not limited to, knives, pellet guns, air guns, spring loaded or paintball guns), or other dangerous articles or substances in University housing.

Activating a false fire alarm is strictly prohibited. Students are not to tamper with or remove any fire or safety equipment (including, but not limited to, smoke detectors, sprinkler systems, fire extinguisher, etc.) in the residence halls. Items may not be hung from the sprinklers. Students must vacate the building whenever the fire alarm system is activated. Open flame or open element devices (including, but not limited to, candles-wick or no wick, incense, George Forman grills, toasters, toaster ovens, barbecue grills, etc.) are not permitted in the residence halls.

Definitions and Findings

Fire: Any occurrence of an open flame or other type of burning in any area not intended to contain burning in an uncontrolled manner.

False Alarm: System malfunction or trouble alarm, or the fire alarm was activated intentionally when no smoke or fire danger was present subsequently no injuries, damages or fatalities occurred.

Unwanted Alarm: The fire alarm system activated as it is designed to, however no smoke or fire was present subsequently no injuries, damages or fatalities occurred.

During the period of January 1, 2012, through December 31, 2012, HSSU had one residential fire, resulting in minimal damage (less than \$200.00).

CAMPUS LAW ENFORCEMENT POLICIES AND INFORMATION ABOUT THE CAMPUS PUBLIC SAFETY

Enforcement Authority and Constant Patrol Presence

The Campus Public Safety is a security department currently composed of approximately 13 full-time and 4 part-time employees who provide a full range of services around the clock, every day of the year. DPS's primary responsibility is the protection of life and property at the University. Officers are licensed by the St. Louis Board of Police Commissioners to patrol University grounds, buildings and parking areas. DPS officers may make arrests for crimes and may enforce University rules and regulations. DPS officers patrol in motor vehicles, bicycles, on motorized carts and on foot. Additionally, some officers maintain fixed security posts in high traffic areas, such as in residence halls and in Clay Early Childhood Development Center. The officers are armed and respond to criminal matters and perform various tasks, such as securing buildings. All officers carry two-way radios.

Safety Escorts

The HSSU Student Patrol provides walking safety escorts on campus for students, staff and visitors. During evening hours, trained student workers wearing identifying vests and carrying a two-way radio are dispatched upon request to assist persons who require a safety escort.

Special Events

Additional public safety officers may be assigned to provide security at special events involving large numbers of people. A Campus Public Safety representative works closely with the Business Office and other University departments to ensure security services are provided as needed.

Relationship/Cooperation with Local Law Enforcement

- The University maintains an excellent working relationship with local and federal law enforcement officials and local government.
- Campus Public Safety personnel serve on neighborhood and other groups that, among other things, involve law enforcement and safety and security issues.
- Campus Public Safety officers can request that the St. Louis City Police Department issue summonses for several ordinance violations that occur on University premises. Public safety officers can detain and, if appropriate, arrest anyone who commits crimes on University property. Local police are always contacted and respond in these situations.
- Campus Public Safety representatives work closely with local law enforcement at all of its on campus property sites to investigate and properly report crimes.

CRIME REPORTING POLICIES

Policies that Encourage Accurate, Prompt Reporting of all Crimes to the Campus Public Safety and Appropriate Police and Fire Agencies

The Campus Public Safety maintains a close working relationship with the St. Louis Metropolitan Police Department (SLMPD), surrounding police agencies and the St. Louis Fire Department (SLFD). Students, faculty, staff, and guests are encouraged to report crimes and public safety related incidents to the Campus Public Safety, the SLMPD or SLFD by calling (314) 340-3333 or 911. If the crime or emergency is reported to DPS and assistance is required of the local police or fire department, DPS will contact the appropriate department. Public safety officers participate in new student and new employee orientation sessions to inform University members about the appropriate procedures for reporting crimes and emergencies. DPS representatives periodically meet with representatives of Student Affairs and the Athletic

Department to coordinate crime reporting and address safety and security questions. Individuals designated as Campus Security Authorities are provided with training and informed of the manner in which crimes are to be reported to DPS.

Victims or witnesses of a crime may report crimes voluntarily and confidentially by way of emailing the Executive Director of Institutional Security and Development, richardh@hssu.edu or by calling the (314) 280-9970 or (314) 340-5952.

Type and Frequency of Programs about Safety and Crime Prevention

- The Campus Public Safety webpage illustrates crime information, safety tips and crime notification alerts related to recent events. Campus Public Safety has an e-mail address (richardh@hssu.edu) that can be used for communicating questions, or requests to Campus Public Safety. New students and employees are informed about safety and security issues at orientation sessions. Students living on-campus are also provided additional information specific to their residence hall. The Student Handbook and Staff Handbook provide safety, security and emergency information and guidance.
- Residence Life staff hold floor meetings at the start of each fall term for all new resident students at the University to discuss issues such as keys, security, fire and other emergencies, alcohol and drug use, date rape awareness and individual responsibility.
- Throughout the year, presentations may be given by representatives of the Campus Public Safety, Res Life and guest speakers on topics such as student dating and relationship issues, sexual assault, workplace violence, alcohol-related issues, alarm use and personal safety matters. Representatives of Campus Public Safety are always available to schedule individual or group safety presentations or to provide assistance in addressing specific problems. Representatives of the Campus Public Safety meet with various University

organizations throughout the year to address safety and security issues.

- **Missing Students**

All faculty, staff, and students (University community members) share the responsibility of immediately reporting to the Campus Public Safety, when they believe that a student is missing. If a member of the University community has reason to believe that a student, who resides in on-campus residential housing, is missing, he or she should immediately notify the Campus Public Safety at (314) 340-3333 or the Dean of Student Affairs at (314) 340-5112. Campus Public Safety will investigate in cooperation with the Dean of Student Affairs and the Director of Residential Life. Campus Public Safety will notify the St. Louis Metropolitan Police within 24 hours of the determination that a student is missing.

In addition to registering a general emergency contact, students are expected to identify an Emergency Contact for purposes of notification in the event the student is determined to be missing. A student's confidential contact information will be accessible only by authorized University personnel and law enforcement officials in the course of a missing persons investigation. If the missing student is a residential student, Student Affairs, Residential Life and Campus Public Safety will conduct a preliminary investigation of the student's whereabouts. If a student designated an Emergency Contact person, the Dean of Student Affairs will notify him or her no later than 24 hours after it's been officially determined that the student is missing. If the residential student is determined to be under the age of eighteen, and not an emancipated individual, the Dean of Student Affairs will then contact the residential student's parents or guardian and any other designated contact person within 24 hours of the residential student being determined missing.

INFORMATION FOR YOUR PROTECTION

- An incident report database is maintained by the Campus Public Safety. The incident report

database may be made available upon request during business hours at Campus Public Safety, Room 019, HGA. The incident report database lists reported incidents that occurred on-campus or on public property adjacent to campus property. This database includes the nature, date, time and general location of each incident and the disposition of the complaint, if known. The University may withhold information from the incident report database if the release of the information would jeopardize an ongoing criminal investigation or the safety of an individual; cause a suspect to flee or evade detection; or result in the destruction of evidence. Once the adverse effect described above is no longer likely to occur, the University may disclose all withheld information in the database.

- There is one automatic teller machine on-campus located in the lobby of the Bosley Residence Hall.
- Weapons are prohibited on all University property even if a person is licensed under Missouri's concealed carry law. The Campus Public Safety must be notified prior to any person bringing any weapon onto University property.

POLICY ON ALCOHOLIC BEVERAGES

The law of the State of Missouri states: "Any person under the age of 21 who purchases or attempts to purchase, or has in his or her possession any intoxicating liquor ... is guilty of a misdemeanor. Furthermore, anyone guilty of a misdemeanor shall, upon conviction, be punished by a fine of not less than \$50, nor more than \$1,000, or by imprisonment for a term not exceeding one year, or by both such fine or jail sentence."

HSSU recognizes both the letter and spirit of the law, as well as the needs of students for social activities. The following alcohol policy and guidelines set parameters within which alcohol use will reflect this increasing awareness of our responsibility to each other:

- In observance of the law of Missouri and the ordinances of the City of St. Louis, no person

under the age of 21 may purchase or attempt to purchase, or have in his or her possession, any intoxicating beverage on University premises or at University activities. Therefore, no alcoholic beverage may be served or sold to anyone less than 21 years of age on University premises or at University activities. Students must present a valid driver's license or State of Missouri identification card at events held on the University's premises at which alcohol is available. Students found presenting false identification will be subject to disciplinary action and possible criminal prosecution.

- Consumption of alcoholic beverages on University premises by those who are older than 21 years of age is permitted ONLY at those events that have been approved expressly by the University ONLY in those locations for which the University has a license. Approval for alcohol service at events sponsored by University departments is obtained from the Office of Business and Financial Affairs.
- University funds may not be used to pay for any portion of an event at which alcohol is served to or consumed by minors.
- Monitoring and enforcing compliance with the policy and guidelines is the responsibility of the Campus Public Safety outside of buildings and of the appropriate director or sponsor inside of the building. Compliance with the policy in residence halls is the responsibility of the director of Res Life and Student Affairs.
- University departments and student organizations may impose additional restrictions on the use and distribution of alcohol by its members.

The University is obligated to respect law, and it attempts to protect the rights of others threatened by illegal or immoderate drinking on campus or at social events sponsored by the University. The University, therefore, disapproves of drinking that infringes on the rights of others, misconduct due to drinking or drinking by anyone under 21 years of age. The University does not condone any drinking patterns that lead to behaviors detrimental to the

health and welfare of the individual, student group or University community. Social activities are expected to have clear purposes, other than the consumption of alcoholic beverages. The University encourages moderation in the use of alcohol for those of legal age that choose to drink. The University strongly asserts that choosing not to drink is as socially acceptable as choosing to drink.

Finally, in accordance with our policy, the University may sponsor programs and develop guidelines to help community members understand the advantages of a healthy lifestyle, the consequences of use and abuse of alcohol, the moral implications of alcohol use and the importance of personal and community responsibility.

POLICY ON ILLEGAL DRUGS

Possession, use and distribution of stimulants, depressants, narcotics or hallucinogenic drugs and other agents having potential for abuse, except on a physician's or dentist's prescription, is forbidden by University policy and local, state and/or federal law. Such use and conduct are prohibited on HSSU's premises or as part of any University activity. Selling, bartering, exchanging or giving away such drugs to any person is illegal and prohibited. Any student engaged in such activities will be subject to arrest by law enforcement agents and will seriously jeopardize his or her status as a student at the University.

In accordance with the Drug Free Schools and Communities Act and the Drug Free Workplace Act, the University annually distributes to students and employees an informational brochure that includes the University's alcohol and drug policies, counseling and assistance programs, University and legal sanctions, health risks and uses and effects of controlled substances.

POLICY ON SEXUAL ASSAULT

HSSU is committed to fostering a safe and supportive environment conducive to the academic pursuit and healthy personal development of all persons. All members of the University community share responsibility for fostering this environment by

adhering to standards of conduct. Any form of sexual assault is a serious violation of these standards and will not be tolerated.

It is the University's desire to create a supportive climate that will encourage individuals to report incidents. Reporting of these incidents is the only mechanism by which offenders can be officially sanctioned by the University, thereby reducing the risk of repeat occurrences. In the absence of formal reporting, informal reporting is essential for the University to acquire an accurate account of the campus environment. Any reporting provides the opportunity for the University to provide compassionate, effective intervention, support and remediation, and most importantly, to help prevent such incidents from occurring.

The procedures outlined in handling sexual assaults are designed to achieve the following goals:

- Provide prompt and compassionate support services.
- Provide a comprehensive framework in which the needs and decisions of all parties concerned are central in determining further administrative response and assistance.
- Create a campus environment that both facilitates and expedites the prompt reporting of sexual assault.
- Cultivate a climate of community empowerment and education in which behaviors that contribute to sexual assault are not tolerated.
- Ensure that appropriate steps are followed when sexual assault is reported.
- Protect the rights of the reporting Party, the accused party, and other parties involved in or affected by the case.

This Policy applies to all behavior in which the accused party is a student. In the event the accused party is no longer subject to the University's process or other University policies and procedures, the

reporting party will be referred to the St. Louis Metropolitan Police Department. In the event the accused is faculty, staff, or a non-University affiliated party, the reporting procedures and resources are the same as set forth in this Policy.

The following individuals or entities across campus have been designated to receive reports of sexual assault: Campus Public Safety ; VP of Student Affairs and Enrollment Management; and the Director of Res Life.

Procedures for Reporting Incidents of Sexual Assault Assistance and Medical Care

The priority response to any complaint of sexual assault is to address the safety of the victim. The University will help the reporting party get to a safe place and assist the reporting party in seeking immediate medical treatment and to preserve evidence for any complaint process the victim may choose to pursue.

Reporting and Support

The University encourages the reporting of all incidents of sexual assault. Any threat of retaliation or other attempt to prevent the report or investigation of an incident of sexual assault, or prevent participation in proceedings relating to sexual assault, is itself prohibited and will result in disciplinary action.

Confidential Reporting

The only reporting option that affords complete confidentiality is speaking with a licensed counselor in Student Affairs. Speaking confidentially with a counselor in Student Affairs may also be helpful in deciding how to proceed because a counselor will provide information regarding additional reporting options to include filing a report with the St. Louis Metropolitan Police.

Other Reporting Options and Support Resources

A criminal report may be filed with the St. Louis Metropolitan Police Department, or appropriate

jurisdiction. The Campus Public Safety is available to provide assistance with contacting the St. Louis Metropolitan Police Department, or other appropriate jurisdiction. An individual may file a report with both the University and the St. Louis Metropolitan Police Department, or other appropriate jurisdiction, as the systems operate independently.

Regardless of the reporting option(s) used by the victim, the first priority is to receive prompt medical attention to treat any medical injuries and preserve evidence in the event the reporting party chooses to pursue a complaint at a later date. Please note that the first 96 hours after a sexual assault is a critical time frame for gathering the most complete medical evidence.

In addition to the reporting options and conduct process, there are a variety of other services available, which include follow-up medical care, academic assistance, alternative housing, a “cease and desist” order (i.e., a no contact order) from the Dean of Student Affairs, or an Order of Protection with the St. Louis City Circuit Court (Civil Courts Building, 9th Floor, Adult Abuse Office, 10 N. Tucker), or other appropriate jurisdiction.

Counseling Services

HSSU provides confidential, professional counseling and referrals for students needing assistance for problems related to sexual assault. Students may obtain information and assistance by calling the Director of Counseling Services, Dr. Vicki Bernard at (314) 340-5089. If calling after hours, Campus Public Safety can also contact Dr. Bernard in an emergency situation.

Anonymous Sexual Assault Reporting Form

The Department of Counseling Services, which falls under the purview of The Division of Student Affairs, has a form which can be used to anonymously file a report about any type of sexual assault in which a HSSU student, faculty or staff may be involved. A link to the form is also located on the Counseling Services webpage:

Possible Sanctions

Possible sanctions the University may impose following a final determination of disciplinary proceedings regarding rape, acquaintance rape, or other forcible or non-forcible sex offenses include: expulsion, suspension, probation, restitution, fines, restricted access or residence hall contract termination.

The University will, upon written request, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the University against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the University will provide the results of the disciplinary hearing to the victim's next of kin, if so requested.

Educational Programs

Educational programs to promote awareness of sexual assault, acquaintance rape and other sex offenses are offered through Student Affairs.
